Environmental Management System (EMS) Policy: Shape Corp. will achieve and demonstrate sound environmental performance and protect the environment by controlling the impact of our activities, products, and services on the environment by:

- Reducing environmental risk,
- Reducing greenhouse gas emissions,
- Protecting valuable natural resources,
- Preventing pollution, protecting air quality, and reducing waste,
- Responsible chemical management,
- Continuous measurement and improvement in environmental performance, and
- Compliance with environmental regulations and other interested parties.

Environmental Management System (EMS) Scope:

This EMS applies to all Shape Corp global sites, considering activities as the design, manufacture, and assembly of custom roll-formed, stamped, welded, pultruded, injection molded, and aluminum products and components as well as electro deposition and powder coating of automotive, office furniture and other products as well as to the environmental aspects and possible environmental impacts related to all the manufacturing process and the Legal and other requirements that apply.
